

Raincover Hi-Vis 65 litre - orange

Close-fitting protection for rainy days

The rain cover can be installed on backpacks measuring up to 610 x 290 x 388 mm and is made of a durable coated material that is capable of keeping bags dry even in pouring rain.

Putting on the rain cover is quick and easy. Simply pull it over a backpack, and the elastic material will perfectly conform to the shape of the bag. The rain cover not only provides reliable protection against rain but also ensures good visibility during twilight and at night thanks to its fluorescent materials and 3M reflective strips, which are certified according to EN ISO 20471:2013.

Product features:

- Water-repellent surface
- High-visibility fluorescent material certified according to EN ISO 20471:2013
- Reflective 3M strips certified according to EN ISO 20471:2013
- Can be easily put on within seconds
- Close-fitting thanks to elastic material (for backpacks up to 610 x 290 x 388 mm)

Specifications:

Item number:	P20471-13
