

Meet the DotCombo®

Round buttons, colors, 10 meters of Bluetooth for very, very large screens.

Yellow

Purple

Orange

Green

The good Combo to type, click and scroll.

Why stick to boring squares? The **DotComo®** keyboard and mouse duo elevates your workspace with smooth curves, bold style, and everyday comfort.

No cable in the box?

Truly wireless freedom. 2m, 5m, all the way to 10m—still seamlessly connected. The range is so good you'll need a 48" screen just to see your cursor.

Which replacement battery do I need again?

Forget batteries. Just grab a Type-C cable—both are fully rechargeable.

When you're looking for a typewriter vibe, but you're too young to have used one.

Stylish design, zero color compromises. It gives you that classic typewriter aesthetic—except you actually know how to use it, and you'll still need a printer for the paper.

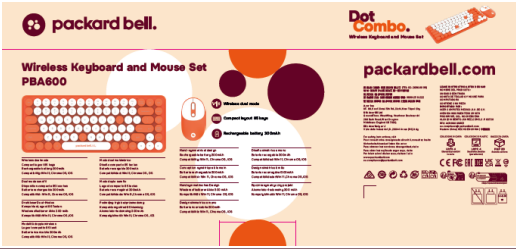

Specifications

DotCombo®

For the ones who actually
read the specs.
