

VIPER V370 RGB 7.1 VIRTUAL SURROUND GAMING HEADSET

The Patriot Viper V370 RGB 7.1 virtual surround gaming headset is designed to provide an enhanced PC gaming experience. Engineered with a closed back and ergonomic ear cups, the V370 blocks out environmental noise and fits comfortably over the ears to keep you relaxed and focused on your game longer.

The built-in microphone with noise cancellation makes for a crystal clear sound and folds way while not in use. Simply fold it out to turn it on and fold it away to turn it off. Volume and UBR controls are conveniently located on the ear cup, eliminating the need for awkward and heavy audio controller on the cord. The RGB LED illumination and audio settings can be customized using the Viper software.

Experience Patriot's revolutionary Ultra Bass Response (UBR) system to add an extra dimension of enhanced audio to your game play. Simply flip a switch to enable two powerful sub-woofers to really feel the game between your ears.

Backed by Patriot's award winning customer service and two year warranty, the V370 is compatible with nearly every Windows® operating system, including Windows® 10, Mac® OS X, or higher.
