

XPG ALPHA WIRELESS GAMING MOUSE

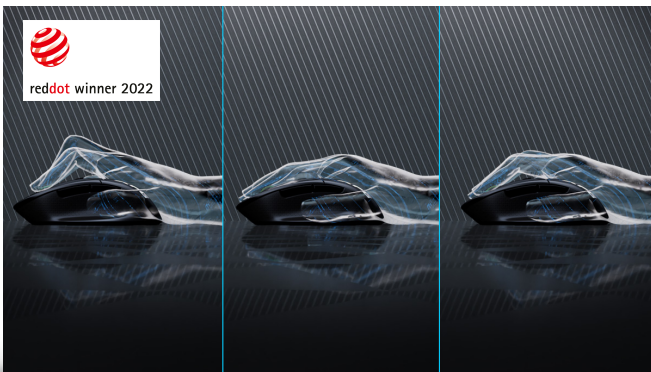

UNTETHERED XTREME

reddot winner 2022

XPG ALPHA WIRELESS is an all-around gaming mouse offering a combination of high performance and gamer-tailored customization via XPG PRIME software. It's ergonomically designed for long lasting gaming session, both in terms of comfort and battery life. The connection modes are 2.4G wireless and Bluetooth, and its battery capacity can last up to 60 hours (depending on usage). Its PIXART PAW 3335 sensor offers up to 16,000 DPI and 400 IPS speed. And more for gamers to optimize when synchronized with XPG PRIME software.

AWARD-WINNING ERGONOMIC DESIGN for GAMING

Designed to offer the best user experience for gaming, the XPG ALPHA WIRELESS's ergonomic curve for the palm to rest upon, XPG's :Exoskeleton design language aims to synergize the strengths of both performance and function with aesthetics. As such, the XPG ALPHA WIRELESS design concept was recognized as a winner of 2022 Red Dot Design Award.

:EXOSKELETON DESIGN LANGUAGE

The first feature that clearly sets XPG ALPHA WIRELESS gaming mouse apart from the pack is the simple and elegant aesthetic curve line. Over the last few years, XPG has been investing in building its own industrial design language, called “:Exoskeleton” to focus on a balance between form and function, an ergonomically comfortable gaming experience and enjoyable sessions without foregoing a pleasant glance on your desktop.

PROGRAMMABLE via XPG PRIME SOFTWARE

XPG ALPHA WIRELESS is a software-programmable gaming mouse, offers buttons, DPI settings and lighting effects to be customized and tailored to gamer's needs to seamlessly switch between multiple computers.

MULTIPLE CONNECTIVITY OPTIONS

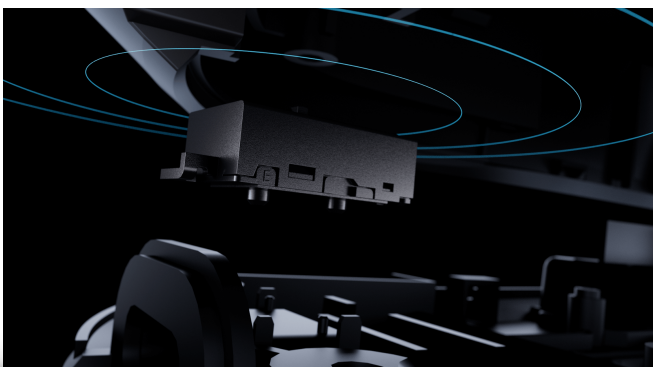

XPG ALPHA WIRELESS Gaming Mouse can be connected in the 2.4G wireless mode, offering high-performance with low-latency connection quality. Bluetooth mode is also available for low-energy battery-saving mode.

LONG BATTERY LIFE up to 60 HOURS

Designed to offer the best user experience for gamers, the XPG ALPHA WIRELESS Gaming Mouse offers up to 60 hours of battery life (depending on usage).

PREMIUM OMRON SWITCHES

The brand new XPG ALPHA WIRELESS is built to be carried with you often and for a long time to come. With the use of high quality OMRON switches, the XPG ALPHA WIRELESS boasts a switch MTBF of over 60 million clicks.

HIGH PERFORMANCE PIXART PAW 3335 SENSOR

XPG ALPHA WIRELESS equips PIXART PAW 3335 sensor to deliver both high performance and high precision. Offers up to 6 preset DPI settings baked into the mouse that can be easily shuffled with the DPI button at the top of the mouse. The sensor supports DPI range from 100 to 16,000 (via XPG PRIME), ideal for MMORPG games to FPS shooting games.

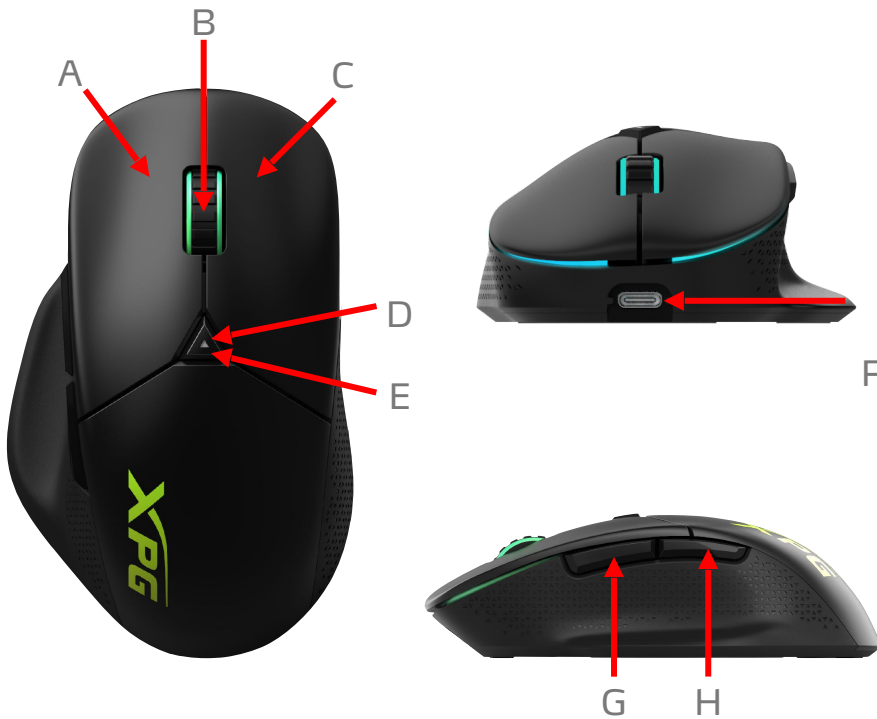

FEATURES
