BOLT³

Professional SSD Storage
Data Sheet

Unmatched Speeds for Unlimited Creativity.

Pull off your ultra high-res projects with the world's fastest desktop storage. Break open bottlenecks and tighten up 4K–6K video workflows with blistering Thunderbolt™ 3 speeds and a reliable new industrial design.

Create at the speed of lightning.

For the Bolt³, LaCie harnessed the breakthrough performance potential of the Thunderbolt 3 I/O and paired it with the absolute fastest SSDs on the market. With a pair of M.2 PCIe SSDs striped together into a 2TB volume, the result is astonishing speeds of up to 2800MB/s.

For transfers in minutes, not hours.

That kind of speed slashes time off nearly every task in your video workflow. Ingest RAW footage from cinema cameras in a fraction of the time. Transcode 4/5/6K footage much faster, then transfer a terabyte of footage from the Bolt³ to RAID storage in minutes instead of hours.

Built for dependability, from the outside in.

The display stand securely docks the product with powerful neodymium magnets—and detaches for easy transport. A magnetized cable door conceals interface and power supply ports, but swings open for easy access.

System Requirements

- Computer with a USB-C (Thunderbolt 3) port[1]
- Latest version of Windows® 8 and later
- Latest version of Mac OS® X 10.10 and later
- Minimum free disk space: 600MB recommended

What's Included

- LaCie Bolt[3]
- Magnetic display stand
- USB-C (Thunderbolt 3 40Gb/s) cable
- Power supply
- Cleaning cloth
- Quick Install Guide

Region	Model Number	Capacity	Limited Warranty (years)	UPC Code	EAN Code	Multi-Pack UPC
