SE900G External Solid State Drive

BRILLIANT PERFORMANCE

SE900G External Solid State Drive

The ADATA SE900G is a USB 3.2 Gen2x2 external solid state drive that is the amalgamation of performance and brilliant style. It delivers excellent usability with up to 2000MB/s read/write. What's more, the SSD sports a dazzling RGB panel that covers 74% of the device's front cover for stunning flair. With style and performance, the SE900G is a device discerning gamers and creators will appreciate.

Break on Through with 2000MB/s Read/Write

The SE900G delivers breakneck read/write speeds of up to 2000MB per second for enhanced productivity and performance.

RGB Galore

What will strike anyone at first glance is how brilliant the SE900G is. With RGB spread out over 74% of its front cover, the external SSD is stunning and a great addition to any gamer's arsenal of RGB gear.

* To achieve optimal performance, the host PC must also support USB 3.2 Gen 2 and had UASP drivers installed. Actual performance may vary depending on hardware and software configurations.

Get Gaming Faster

Store your overfill of games* onto the SE900G. When you're ready to play them, the SE900G will load them up faster than a traditional external hard drive.

All Major OS Covered

Android**, macOS, and Windows, the SE900G supports them all.　Enjoy your videos, photos, music, and everything else at any moment, and easily share them with the SE900G. Plus, it's great for gaming too.

Support for external storage devices varies by mobile device and game console. Please visit ADATA official website to learn more.

* Actual loading times may vary by game. Formatting may be required before use with a game console.

** The software and hardware of the host device must be compatible with and support external solid state hard drives in order to utilize OTG data backup and transmission functions.

Features

● Supports super-high-speed USB 3.2 Gen2x2 specification with Type-C
● Read/Write speed up to 2000 MB/s
● Gaming-style RGB lighting

Specifications
