

UE720 USB Flash Drive

Flash in Motion

UE720 USB Flash Drive

A USB flash drive with SSD-level performance is here! UE720 features USB 3.2 Gen2 speeds with read/write up to 550MB/s. Capless design with no extra cables needed. Compatible with a wide range of computer platforms — a perfect surprise for users on the go.

Born Fast. Built to Move

With powerful performance by design, the UE720 features a USB 3.2 Gen2 interface with 10Gbps bandwidth. Instantly plug and transfer large files or countless smaller ones—all with ease. Fully backward compatible with USB 2.0 devices.

Speed is in its DNA

With read/write speeds up to 550MB/s, it's 5× faster than standard USB 3.2 Gen1 drives.

Edit and access large files directly from the drive—enjoy seamless, high-speed performance wherever you go.

Big? Go Bigger

With 4K videos eating up in seconds, the UE720 gives you up to 256GB of room to breathe. Save your shows, edits, and project files storage with ease—no more picking and choosing.

More Files, Less Limits

Running out of space for your games? The UE720 connects to next-gen consoles and stores what your system can't. Compatible with multiple OS, PCs, and gaming platforms—transfer files anytime, anywhere.

Features

- Equipped with USB 3.2 Gen2 (USB 10Gbps) interface
- Transfer speeds up to 550/450MB/s
- USB flash drive with SSD-level performance
- Capless, push-to-use design with no cable required
- Compatible with various systems and platforms
- Keyring hole for easy carrying

Specifications

- Capacity: 256GB / 128GB / 64GB
- Color: Grey
- Dimensions (L x W x H):
67.3 x 23.5 x 10.2mm / 2.65 x 0.93 x 0.4inch
- Weight: 13g / 0.46oz
- Interface: USB 3.2 Gen 2 (10Gbps)
(backward compatible with USB 2.0)
- System requirements:
Windows Vista, 7, 8, 8.1, 10 / 11, Mac OS X 10.6 or later,
Linux kernel 2.6 or later, with no device driver needed
- Warranty: 5-year limited
