

POWERSHOT GOLF

IDEAL FOR

Distance Measurement

Recording

Slope Mode

KEY FEATURES AND TECHNOLOGY

Laser Rangefinder

Using a laser beam¹ to measure distances, it emits a laser pulse towards the target, which reflects back to the rangefinder. This is measured by calculating the time taken for the laser to bounce back, providing golfers with accurate information.

Slope Mode

Adjust distance measurements to account for changes in elevation by calculating the angle between the rangefinder and target. Helping golfers with accurate distance readings on hilly courses, factoring in slopes.

Pin-locking function

Canon PowerShot GOLF's incorporated pin-locking function targets the closest object in the case of multiple subjects being detected during continuous rangefinding. Once the intended object becomes clear, a flag icon displayed in the viewfinder and a vibration² indicates the measurement has been taken.

Powerful but pocketable

The palm-sized and lightweight Canon PowerShot GOLF easily slips into your pocket between shots. And it's water-resistant³ to IPX4 standards for use on rainy days.

Record and improve

Effortlessly take photos, record videos and document the course as you play. Canon PowerShot GOLF's camera makes keeping a diary of your round easier than ever.

COMPETITION COMPATIBLE

Slope Mode On/Off

The ability to toggle the Slope Mode On or Off is crucial for laser rangefinders. Conforming to the rules of Golf when the slope function is turned off.

- Slope adjusted on/off toggle.
- Tournament compliant.
- File deletion restricted & Playback blocked.

Visible flashing blue 'Slope off Indicator'⁴.

ON THE COURSE

A compact device that helps players see what the naked eye cannot.

A rangefinder that fits into every pocket with ease.

Easy-to-use built-in camera with bright, crystal-clear optics.

PRODUCT SPECIFICATION

| | |
|--------------------------|--|
| Range to flag | 800 yards |
| Magnification | 6x/12x (approx.) (12x with digital zoom ⁵) |
| Slope adjusted ranging | Yes |
| Slope On/Off | Yes ⁴ |
| Measurements | Yards or Meters |
| Video recording length | Maximum of 59 sec. |
| PinSeeker w/ Visual Jolt | Yes |
| Legal for tournament | Yes |
| Clear view | Yes |
| In-built camera | Yes |
| Water resistant | Yes (IPX4) ³ |
| Weight | 151g (with memory card) |
| Dimensions | Approx. 31.0 x 58.9 x 91.2 mm |
| What's in the box | Soft case, Wrist strap |

DETAILED FEATURES

Slope Switch

The ability to toggle the slope switch on and off.

Flag Pole Locking

Lock on flag poles for accurate readings.

Clear View

High-quality optics for sharpness and clarity.

Water-Resistant

IPX4 standards for weather protection³.

6x

Magnification

View equivalent to 6x (12x digital⁵).

Still & Video

11MP stills and Full HD video⁶.

0.8
SECONDS

Fast Measurement

Approx. 0.8 seconds⁷.

Quick Startup

Fast startup

Ready when you are.

Power-Saving

Auto power off and viewfinder off options.

Vibration Function

Vibrates to confirm measurement⁸.

USB Charging

Convenient solution with USB Type-C[®] (USB 2.0)¹⁰.

Image Stabilizer

Optical stabilisation for a steady view.

ACCESSORIES

PD-E1
Power Supply

IFC-100U
Interface Cable⁹

Micro-SD card⁹

USB Type-C[®] and USB-C[®] are registered trademarks of USB Implementers Forum. All other trademarks are the property of their respective owners.

1. This is a Class 1 laser, which means it is eye-safe under all operating conditions. 2. Vibration can be turned off in Canon PowerShot GOLF's settings if desired. Does not vibrate during movie recording. 3. Terminal cover must be securely closed to maintain water resistance. Although the rangefinder features water-resistant construction, this cannot completely prevent water droplets from entering the rangefinder. 4. When the slope function off lamp is blinking, the playback and file delete functions are restricted. 5. Lower image quality when equivalent to approx. 820 mm, due to digital zoom. 6. 1 min. maximum recording time per movie. 7. Based on Canon testing standards. 8. Can be switched ON or OFF from the menu. Does not vibrate during movie recording. 9. Sold separately. 10. Not included.
