CRS125 -24G-1S

Cloud Router Switch is our new Smart Switch series. It is a fully functional Layer 3 switch, and is powered by the familiar RouterOS. All the specific Switch configuration options are available in a special Switch menu, but if you want, ports can be removed from the switch configuration, and used for routing purposes.

Two models are available:
- CRS125-24G-1S-IN - desktop enclosure
- CRS125-24G-1S-RM - 1U rackmount enclosure

Perfect SOHO gateway router, switch, all in one box

- Ethernet, Fiber, or 4G (with optional USB modem) gateway connection to Internet
- RouterOS gateway/firewall/VPN router
- up to twenty-five gigabit switch ports (1xSFP and 24xRJ45)

- Fully manageable L3 switch, full wire speed switching
- Configure ports as switch, or for routing
- If required, full RouterOS power right there
