

Boost your existing WiFi

- Works with any standard WiFi router
- WiFi up to 300Mbps
- External antennas for better performance
- Convenient wall-plug design

Overview

The NETGEAR WiFi Range Extender boosts your existing N300 WiFi and delivers greater wireless speed, range and connectivity. It works with any standard WiFi router and is ideal for video streaming and gaming. External antennas provide better performance and the convenient wall-plug design saves space. Get the connectivity you need for iPads®, smartphones, laptops and more.

Boost N300 WiFi

Improve range & speed of your existing N300 WiFi network.

External Antennas

For better WiFi coverage & more speed.

Fast Ethernet Port

Connect a wired device like a Blu-ray® player, game console, smart TV or streaming player to your WiFi network.

Smart LED Indicators

Finds best location for optimal WiFi coverage.

- Fast Ethernet port

This product comes with a limited warranty that is valid only if purchased from a NETGEAR authorized reseller.

* 24/7 basic technical support provided for 90 days from date of purchase when purchased from a NETGEAR authorized reseller.

¹ Works with devices supporting Wi-Fi Protected Setup™ (WPS).

Data throughput, signal range, and wireless coverage per sq. ft. are not guaranteed and may vary due to differences in operating environments of wireless networks, including without limitation building materials and wireless interference. Specifications are subject to change without notice.

The product may not be compatible with routers or gateways with firmware that has been altered, is based on open source programs, or is non-standard or outdated.

For indoor use only. Valid for sale in all EU member states, EFTA states, and Switzerland.

ATTENTION: Due to EU law, the country settings must be identical to the country where the device is operating (important due to non-harmonised frequencies in the EU).
