Team up. Seamlessly.

One button, tons of benefits: As the world's first video conferencing monitors certified for Microsoft Teams, you can join meetings faster, end meetings, respond to notifications or launch the application with the one-touch Microsoft Teams button. Plus, the LED button flashes to notify you about an alert.

Collaborate like you're there: With the high definition 5MP IR camera, dual 5W integrated speakers and noise-canceling mic, you can feel in-person even while you're remote.

Quick, safe protection: Save time signing in with secure, Windows Hello facial recognition that's faster than remembering and typing your password. Biometric sensors activate, and scan your face, eliminating the threat of hacking and providing enterprise-level security.

Personalized convenience: Say what you need and let Cortana do the rest with hands-free commands.

World class video conferencing

Immersive collaboration with C3422WE: Increased screen curvature improves your field of view, reduces reflections and creates near-uniform visual focus. Razor sharp video clarity of the pop-up 5MP IR camera gives you more than twice the details and zoom of a 2MP on a wide, beautiful panoramic screen.

Dual 5W integrated speakers deliver clear, vibrant communication from any workspace quashing background chatter with noise-canceling microphone.

Enhanced security: The pop-up web camera hides safely out of sight when not in use, and there's an intelligent layer of security with facial recognition through Windows Hello.

Seamless video from all angles: FHD video with 30 frames per second rate delivers seamless, media-quality video and stunning screen clarity. The 178°/178° wide viewing angle presents superior views and consistent colors ideal for video conferencing.

Collaborate in comfort

Immersive collaboration with C3422WE: Increased screen curvature improves your field of view, reduces reflections and creates near-uniform visual focus. Razor sharp video clarity of the pop-up 5MP IR camera gives you more than twice the details and zoom of a 2MP on a wide, beautiful panoramic screen.

Comfort is key: Tilt, swivel and adjust the height of your monitor to a maximum of 150mm because you should be comfortable while you work. (Full adjustability: tilt, pivot, swivel and height adjustability available on 27" and 32". The 34-inch curved monitor does not have pivot functionality)

Easy on the eyes: ComfortView Plus is an always-on, built-in low blue light screen that optimizes eye comfort by reducing potentially harmful blue light emissions while delivering excellent color accuracy.

Beauty meets function: This sleek monitor features a small based and an improved cable management design that hides cables in the monitor riser, for a clutter-free desk space at your office or home office.

Designed with you in mind: Navigate the menu and adjust screen settings with the easy-to-use joystick control.

Your productivity hub

Connect to productivity: With wired connectivity options like RJ45 and USB-C®, your monitor delivers reliable Ethernet, power, audio and video – all in a clutter-free setup.

The power of USB-C: Get up to 90W of power delivery via USB-C and charge your laptop (even when the monitor is off) with the Always On Power Delivery feature.

Enhanced manageability: Managing your monitor is easy with MAC address pass through, PXE Boot, and Wake-on-LAN conveniently built in.

Multitask efficiently: Connect two PCs to the monitor and display the content at the same time with Picture-by-Picture (Pbp) and Picture-in-Picture (PiP) features. Use the KVM (keyboard, video and mouse) functionality to edit content from two different PCs.

Streamline everyday tasks with Dell Display Manager

Enhance productivity with multitasking features

- Organize multiple applications into up to 38 preset templates and 5 customizable layouts with **Dell Easy Arrange**.
- Restore previous applications quickly and easily via **Auto Restore**.
- **Display Matrix Control** extends viewable workspace up to 16 monitors via the new spanning feature.
- **Automode** easily configures to your preset display settings as you multitask.

Easy configuration with convenient keys and commands

- Shortcut keys can save you time, allowing quick access to commonly used controls that let you work faster.
- Adjust brightness, contrast and resolution directly through the software.

Efficient manageability with remote and energy conservation

- Manage your display inventory by generating an asset management report to tag display ID and settings within your business environment.
- Remotely manage your display environment with OSD, power and active input control .
- Manage energy consumption when your monitor is not in use via PowerNap

Dell Display Manager enhances everyday productivity through comprehensive management tools giving you optimal front of screen experience, efficient display management and easy, effortless multitasking.

Green thinking: for today and tomorrow

- **Environmental standards:** These monitors meet the latest regulatory and environmental standards such as EnergyStar®, EPEAT™, China Energy Label CEL and CECP.
- **Eco-conscious packaging:** To reduce our manufacturing impact on the environment, these monitors are shipped Styrofoam-free, and the packaging is made of at least 75% recycled cardboard.
- **Energy conservation:** Save energy when your monitor is not in use with PowerNap from Dell Display Manager software; a feature that dims or puts your monitor to sleep when not in use.
- **Advancing sustainability:** Dell Technologies is committed to reducing environmental impact throughout the product lifecycle. Read more about our commitment to sustainability and our 2030 social impact goal [here](#).
