Immersive productivity

Stay ahead of the curve with this expansive 37.5” curved screen and see more with WQHD+ (3840 x 1600) resolution, without the need for a dual monitor setup.

Its 2300R screen curvature creates a wider field of view and offers near uniform visual focus, for a more comfortable view over extended periods.

In-Plane Switching (IPS) technology enables consistent color and picture quality across a wide viewing 178° / 178° viewing angle.

Integrated dual 9W speakers deliver great sound for an immersive visual and auditory experience.

Vibrant, accurate color

See true-to-life color with 1.07 billion colors and get a wide color coverage across industry standards including 100% sRGB, 100% Rec 709 and 95% DCI-P3. With 95% coverage of the DCI-P3 color space (which offers nearly 25% more coverage than sRGB), charts, graphs, images and video content are displayed in an even wider range of colors.

Expect accurate colors straight out of the box with 100% sRGB, 100% Rec 709 at Delta-E < 2 color calibration.

This monitor comes with a TÜV certified[1] flicker-free screen with ComfortView, a software enabled solution that reduces harmful blue light emissions for optimized eye comfort even over extended viewing sessions.

[1] TÜV Rheinland certified (Flicker Free / Low Blue Light Content – ID 1111231316.). For more details, visit www.tuv.com.

Stay connected

With connectivity options such as RJ45 and USB-C, this monitor serves as a productivity hub that enables Ethernet[2] connection and up to 90W of power delivery[3] to a connected laptop — all in a clutter-free setup.

MAC Address pass-through[4], PXE Boot, and Wake-on-LAN are conveniently built-in for easy manageability.

Users can easily connect to a variety of devices with comprehensive connectivity including DP1.4, HDMI 2.0, USB-C and USB 5Gbps ports.

Quick access front ports allow convenient connection and charging of peripherals (up to 15W via USB-C).

[2] Ethernet connection via the RJ45 port.
[3] Up to 90W power delivery via USB-C.
[4] MAC Address pass-through functionality is tested to work with most Dell PC systems. Functionality on non-Dell systems may vary.

Multitask efficiently

This monitor comes with built-in KVM (keyboard video and mouse), Picture-by-Picture (PBP) and Picture-in-Picture, enabling users to work efficiently on content from 2 different PCs at the same time.

With the built-in KVM feature, users can conveniently use a single keyboard and mouse to toggle between and edit content from both two PCs.

When a user connects two PCs to the monitor, the intelligent Auto KVM feature automatically detects the latest connected PC and seamlessly switches controls over.

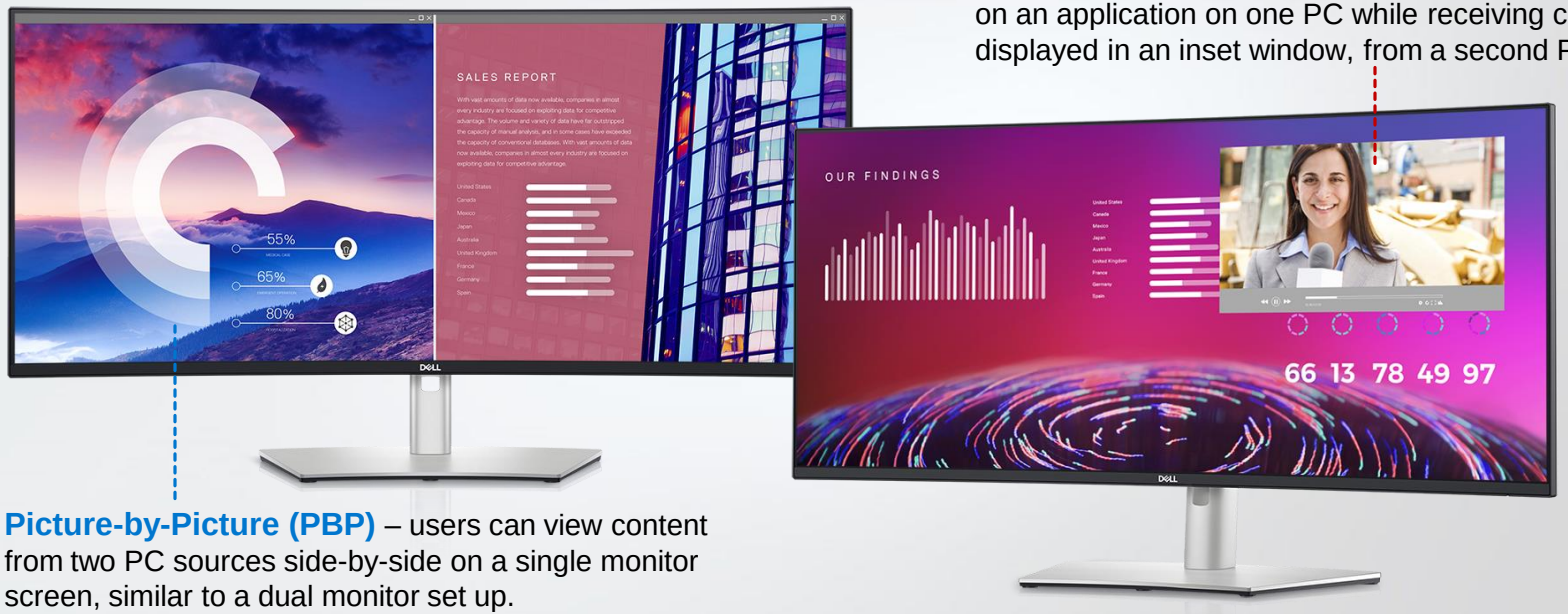
View content from two different PCs, at once

Picture-in-Picture (PIP) – enables users to work on an application on one PC while receiving content, displayed in an inset window, from a second PC.



Picture-by-Picture (PBP) – users can view content from two PC sources side-by-side on a single monitor screen, similar to a dual monitor set up.

Green thinking for today and tomorrow

This monitor meets the latest regulatory and environmental standards such as EnergyStar® and is EPEAT Gold®[6] and TCO Certified.

To reduce manufacturing impact on the environment, it is shipped in Styrofoam-free packaging with paper based material made of at least 75% recycled cardboard.

Save energy with PowerNap[7], a feature that dims or puts the monitor to sleep when it's not in use.

[6] EPEAT registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.
[7] Enabled by Dell Display Manager.
