ALIENWARE™

The Alienware Stereo Gaming Headset

Unparalleled Clarity and Comfort for Gaming Marathons

With over 20 years of experience in the gaming industry and driven by passion, guidance from its customers, and a mission to deliver the most immersive PC gaming experience, Alienware is excited for the release its latest wired headset designed for unparalleled clarity and comfort – the Alienware Stereo Gaming Headset.

Overview

The Alienware Stereo Gaming Headset combines best-in-class custom-tuned drivers and custom-designed acoustic chambers and earpads to provide unparalleled clarity during even the most chaotic gameplay, delivering the audio experience that the developer intended.

The Alienware Stereo Gaming Headset utilizes best-in-class hand-picked 50mm drivers that deliver a high-resolution audio experience. Comfort fit earpads also incorporate deeper custom-designed acoustic chambers, enhancing noise isolation while resulting in a wider, more dynamic soundstage. All this is packaged into a sleek, iconic Alienware Legend Design with non-exposed extenders and a retractable boom microphone that helps create a seamless outline.

Gamers looking to enjoy that marathon gaming session can also feel at ease with this wired headset as it was purposefully engineered for maximum comfort. A hybrid of memory foam and sports fabric work together to achieve optimal cooling and comfort while a leatherette covering enhances noise isolation. The cushioned headband and durable finish tackle both heat and sweat while the ideal clamp force ensures no slippage during those long hours of gaming.

Cross-platform gamers will enjoy the compatibility this headset provides via the swappable 3.5mm cable that makes it compatible with a variety of gaming platforms.

The Alienware Difference

- Unparalleled clarity with Signature Alienware immersive audio experience
- Best-in-class hand-picked 50mm 20Hz – 40KHz drivers for a high resolution audio experience
- Custom-designed acoustic chambers for a wider, more dynamic sound stage
- Hybrid of memory foam, sports fabric and leatherette on the earpads designed to achieve optimal cooling and comfort while enhancing noise isolation
- Cushioned headband provided greater comfort for long gaming sessions
- Ideal clamp force ensures that there is no slippage during gameplay
- Swappable 3.5mm cable provides cross-platform compatibility for use with Xbox One, PS4, Nintendo Switch and mobile devices
- Discord certification ensures crystal clear communication on one of the most stable VoIP platforms for gamers
- Uni-directional noise cancellation retractable microphone for focused gameplay

ALIENWARE™

* Based on internal testing in Dell labs, running the system on idle, using an Alienware m15 equipped with the optional 90Whr battery as well as the Intel Core i5 processor, NVIDIA GeForce GTX 1050 Ti graphics, 256GB SSD, and FHD 60Hz display. Actual battery life may be significantly less than the test results and varies depending on product configuration and use, software, usage, operating conditions, power management settings and other factors. Maximum battery life will decrease with time.

Alienware Stereo Gaming Headset

Alienware Stereo Gaming Headset

The Alienware Signature Audio Difference

Alienware's Signature quality sound is a combination of best-in-class (hand-picked) custom-tuned drivers and custom-designed acoustic chambers and earpads. The result is an audio experience that immerses the user in the environment of the game, providing an immersive gaming experience and unparalleled clarity during even the most chaotic gameplay.

Alienware Precision Calibration for a Fully Immersive Experience

Every Alienware product contains best-in-class components that are custom-tuned using Alienware's precision calibration process. The result is unparalleled clarity and comfort. Best-in-class hand-picked 50mm 20Hz-40KHz drivers deliver a high resolution audio experience while Discord certification provides top-of-the-line voice clarity during game play on one of the most stable VoIP platforms.

Alienware Stereo Gaming Headset

Absolute Comfort for Marathon Gaming

One of the most important factors for any gamer is the ability to survive that marathon gaming session and the new Alienware wired gaming headsets make sure you stay comfortable through a combination of design and materials. A hybrid of sports fabric, memory foam and leatherette not only increase noise isolation but also help you remain cool, reducing heat and wicking away sweat. A balanced design that boasts a sturdy, lightweight and well cushioned headband increases comfort while an optimized clamp force ensures the headset stays exactly where you want it to. All this is packaged into a sleek, iconic Alienware Legend Design with non-exposed extenders and a retractable boom microphone that helps create a seamless outline.
