## Inspiron 7000 Gaming

Don't just play. Game.

### Our most powerful Inspiron laptops. Ever.

The new Inspiron 14 and 15 7000 Gaming laptops are powerful sub-1" laptops tailored to the needs of enthusiasts. They feature the most aggressive performance design and components offered within the entire Inspiron laptop family.

Dedicated forward and rearward thermal vents are the first clue to this system's capabilities. Behind them are extra-capacity heat exchangers connected by oversized piping to dual cooling fans with high-efficiency blade pitch, engineered specifically to handle Intel's latest 7<sup>th</sup> Gen **H-series quad core** mobile CPUs, NVIDIA's latest GeForce® **GTX 1050 and 1050Ti (15 only) discrete** graphics with 4 GB\* of blazing fast GDDR5 memory and hard drives from ultra-quick PCIe NVMe M.2 512 GB SSD, up to 1 TB\* conventional HDD or dual-drive M.2 128 GB\* + 1 TB\* HDD configurations. That kind of muscle easily handles the latest gaming titles or industrial-grade video editing which come to life on displays ranging from FHD up to a brilliant 4K UHD display (FHD on 14).

Rich, immersive audio complements the experience thanks to an onboard **subwoofer**, tailored speaker enclosures and Waves MaxxAudio® Pro audio processing. A **deep-reserve 74 WHr\* battery** (56 WHr on the 14) lets you keep the game or binge-watching going longer than lesser capacity designs in the market. And like all Inspiron 7000 Gaming systems they share performance and feel that rivals devices costing far more, and includes a great range of standard features including fast **802.11ac** wireless, **Gig-E** RJ-45 network port, SD media card reader and USB 3.0 ports.

# Services for Inspiron 7000 Gaming

Dell has services to help with technology needs throughout the life of your Inspiron. Our mission is to be the technology services provider you trust to keep you connected and productive so you can focus on doing more.

## Basic Limited Hardware Warranty Plus Mail-In Service after Remote Diagnosis

Dell's 1 Year Limited Hardware Warranty with Mail-In service after remote diagnosis<sup>1</sup> – If your system encounters an issue covered by Dell's Limited Hardware Warranty<sup>2</sup> and that issue cannot be resolved remotely, this service offers a Mail-In Repair Service (customer provides box and Dell pays shipping) for defects in materials and workmanship in your PC. You can also upgrade or extend your warranty and support coverage with Dell Premium Support. With Premium Support you get 24x7 access<sup>3</sup> to dedicated Dell tech support experts and up to 86% less time on the phone than basic hardware service tech support.

## Dell Premium Support

Tech support can be frustrating with long phone menus, hold times and being transferred again and again. Now, Dell Premium Support, eliminates the hassle with SupportAssist technology by automatically detecting hardware and software issues and proactively alerting you with system alerts and by email when they occur. Our expert technicians even contact you with all the information they need to quickly resolve critical issues. You also get 24x7<sup>3</sup> phone access to experts and onsite support after remote diagnosis<sup>1</sup>.

## Accidental Damage Service<sup>5</sup>

Accidents happen – Dell can help. Minimize the unplanned expenses and downtime by protecting you against unforeseen mishaps caused by drops, spills, surges and breaks. No matter how careful you are, accidents can happen. Accidental Damage Service can provide repair or replacement of your system for accidents up to 3 years, not otherwise covered by the Limited Hardware Warranty.<sup>2</sup>

1 – For US: Onsite Service after Remote Diagnosis is determination by online/phone technician of cause of issue; may involve customer access to inside of system and multiple or extended sessions. If issue is covered by Limited Hardware Warranty and not resolved remotely, technician and/or part will be dispatched, usually in 1 or 2 business days following completion of Remote Diagnosis. Onsite Service is provided by Dell Marketing L.P. Availability varies. Other conditions apply. For complete details about Onsite Service, see [dell.com/servicecontracts](http://dell.com/servicecontracts)

For Rest of World: Onsite Service after Remote Diagnosis: Remote Diagnosis is determination by online/phone technician of cause of issue. Technician or replacement part will be dispatched if necessary following online or telephone-based troubleshooting. Subject to parts availability, geographical restrictions and terms of service contract. Response times may vary depending on product's geographical location. For details about Onsite Service, see [dell.com/servicecontracts](http://dell.com/servicecontracts).

2 - For copy of US Limited Hardware Warranty, write Dell USA LP, Attn: Warranties, One Dell Way, Round Rock, TX 78682.

3 - In EMEA, English-only support after local business hours.

4 - Based on May 2015 Principled Technologies Test Report commissioned by Dell comparing tech support troubleshooting for hard drive failure. Testing conducted in the United States. Actual results may vary. Full report is at <http://facts.pt/DellPremiumSupport1>

5 - This service excludes theft, loss, and damage due to fire, flood or other acts of nature, or intentional damage. Customers may be required to return unit to Dell. Limit of 1 qualified incident per contract year. For complete details, visit [www.dell.com/servicecontracts](http://www.dell.com/servicecontracts).

# Inspiron 7000 Gaming Reliability Claims

## **Designed for the real world — because that's where life happens.**

We want you to love your new PC for years to come. That's why we test Inspiron laptops for reliability not just in the places where you expect it, but for the open road ahead.

1. Turn up the heat: From locker rooms to locked cars, we test Inspiron laptops for survival in harsh short-term heat conditions of up to 65°C / 149°F.
2. Everything hinges on it: We test Inspiron laptop hinges to ensure they still feel tight, even after opening and closing the lid 20,000 times.
3. Keys to success: We test commonly-used keys for 10 million keystrokes and touch pad buttons 1 million times with no failure. So go ahead, finish your novel.
4. Buttoned up: No matter what you set your power and multimedia buttons to do, we've tested them to survive up to 40,000 pushes with no problems.
5. Twist and turn: Call us excessive, but after twisting an Inspiron laptop's base and lid more than 25,000 times, we can assure you the parts inside are well-protected.
6. In for the long haul: Systems undergo at least 10,000 hours of highly accelerated life testing to ensure it's ready for the real world.
